Technology

SUMMARY

I am a web developer with over 2 years of experience delivering solutions across diverse industries. I specialize in designing and managing robust databases, writing clean and efficient code, and ensuring thorough testing of applications. I enjoy tackling complex coding challenges and continuously improving software performance. Passionate about learning new technologies, I strive to create scalable, maintainable, and user-friendly web applications.

EXPERIENCE

Hipe Japan Inc.

Software Engineer / 2024 - current

- Worked on multiple projects, delivering solutions tailored to client requirements.
- Migrated legacy codebases to modern technology stacks using different programming languages.
- Designed system architecture and implemented scalable and maintainable solutions.
- Collaborated with clients and team members to ensure timely and quality delivery.
